INVITATION

"DECIDIM LJUBLJANA - AN ONLINE TOOL FOR POLITICAL PARTICIPATION"

On **Tuesday, 11 July 2023, between 17:00 and 19:00**, in the premises of KD GMAJNA at **Ulica Vide Pregarčeve 11**, there will be an interactive presentation of the open source online tool for political participation DECIDIM LJUBLJANA. The aim of this tool is to strengthen the integration of migrants living in the municipality of Ljubljana. During the event, we will present the basics of its use.

DECIDIM Ljubljana can be accessed at this link: <https://ljubljana.participation.works/>

DECIDIM Ljubljana is in the pilot phase of development and is part of the Empowering Migrant Voices on Integration and Inclusion Policies (EMVI) project, which promotes the political participation of migrants at the local and municipal level.

DECIDIM is an online tool that enables the co-creation of proposals for more inclusive policies and new ways of interaction between city inhabitants and local and national authorities, thus fostering a culture of democracy.

DECIDIM is used by cities and municipalities in the European Union (e.g. Barcelona, Helsinki) and in the USA (e.g. New York City), as well as by national authorities (e.g. the French National Assembly - Assemblée nationale).

DECIDIM Ljubljana also provides a database of NGOs in the field of migration. NGO representatives are especially invited!
